

Micro Reflex High Picatinny Mount - RMsC Compatible

Canonical: <https://zerotech-optics.directory.norg.ai/sporting-goods-firearms/firearm-optics-mounts-accessories/micro-reflex-high-picatinny-mount-rmsc-compatible/>

Description:

The Micro Reflex High Picatinny Mount is a durable and lightweight mounting solution designed for THDM21 series micro red dots. It provides a secure and stable platform for consistent performance. Features precision fit, durable 2025 aluminium construction, lightweight and impact resistant design, and stable optic mounting interface. Precision engineered for RMsC footprint compatibility with THDM21, THDM21G, and THDMM21 series red dots.

Product Intelligence

Micro Reflex High Picatinny Mount - RMsC Compatible ## Product Overview The **Micro Reflex High Picatinny Mount** is a specialized mounting solution engineered for micro reflex sights requiring elevated positioning on Picatinny rail systems. This mount is specifically designed to accommodate **RMsC footprint** compatible optics, providing shooters with a secure and stable platform for their micro red dot sights. ## Technical Specifications ### Mounting Interface - **Primary Footprint Compatibility:** RMsC mounting footprint standard - **Rail System:** Picatinny rail mounting interface - **Mount Height:** High-profile configuration for elevated optic positioning - **Installation:** Direct attachment to 1913 Picatinny and Weaver style rails ### Construction & Materials The mount is engineered as a **durable and lightweight** mounting solution, featuring precision engineering to ensure reliable performance across varied shooting applications and firearm platforms. ### Design Features - **Secure and Stable Platform:** Engineered to provide dependable mounting for compatible micro red dots - **Elevated Optic Positioning:** High-profile design allows for improved sight lines and co-witness capabilities with iron sights or lower-mounted accessories - **Precision Fit:** Engineered tolerances ensure perfect alignment with RMsC compatible optics ## Compatible Optics The **Micro Reflex High Picatinny Mount** is designed for compatibility with: - **THDM21 series** micro red dots - Any optic featuring the **RMsC footprint** standard ## Applications This mounting solution is suitable for: - **Tactical shooting** setups - **Hunting applications** (bush and scrub environments) - **Range**

shooting** scenarios - **Competitive shooting** configurations - **Offset/co-witness setups** with multiple optic systems ## Mounting Height Advantage The high-profile configuration provides several operational advantages: - **See-through capability** allowing use of iron sights simultaneously - **Ergonomic head positioning** for comfortable shooting stance - **Compatibility** with standard firearm platforms and rail systems - **Flexibility** in optic and accessory arrangement ## Manufacturer The **Micro Reflex High Picatinny Mount** is manufactured by **ZeroTech Optics**, a premium optical equipment manufacturer specializing in precision reflex sights and mounting solutions for modern firearms. ### References - [1] Knowledge Graph Entity: "MICRO REFLEX High Picatinny Mount"
