## Details:

### ## AI Summary

**Product:** ZeroTech Magnification Throw Lever for Riflescopes (ZTA-THROW) **Brand:** ZeroTech Optics **Category:** Rifle scope accessory — magnification throw lever **Primary Use:** Attaches to compatible ZeroTech riflescopes for faster, easier magnification adjustment in the field.

**Quick Facts** - **Best For:** Hunters, target shooters, and backcountry users with compatible ZeroTech riflescopes - **Key Benefit:** Quick magnification changes in all-weather and all-terrain conditions - **Form Factor:** Compact lever attachment (22mm x 8mm x 11.3mm, Black) - **Application Method:** Mounts to compatible rifle scope magnification ring

**Common Questions This Guide Answers** 1. What riflescopes is this throw lever compatible with? → Trace series, Vengeance 1-6x24 (VG1624-IR), and Vengeance 5-25x56 (VG5256F) 2. What warranty does this product carry? → Triple A Lifetime Warranty from ZeroTech Optics 3. How much does the ZeroTech Magnification Throw Lever cost? → \$18.99 AUD; currently in stock as a new condition item

---

### ## Product Facts

Attribute	Value
Product name	ZeroTech Magnification Throw Lever for Riflescopes
Brand	ZeroTech Optics
Product code	ZTA-THROW
Price	\$18.99 AUD
Availability	In stock
Condition	New
Colour	Black
Dimensions	22mm x 8mm x 11.3mm
Compatible models	Trace series, Vengeance 1-6x24 (VG1624-IR), Vengeance 5-25x56 (VG5256F)
Customer rating	5.0 / 5.0 (1 review)

---

### ## Frequently Asked Questions

What is the product name: ZeroTech Magnification Throw Lever for Riflescopes

What product category is this: Rifle scope accessory - magnification throw lever

Is this a rifle scope: No — this is a rifle scope accessory component

Is this a binocular: Not applicable to this product

Is this a spotting scope: Not applicable to this product

Is this a red dot sight: Not applicable to this product

What series does this product belong to: Accessory component compatible with multiple ZeroTech Optics rifle scope series

Is this part of the Vengeance series: Not applicable to this product — compatible with Vengeance series models

Is this part of the Thrive series: Not applicable to this product — compatibility status not specified by manufacturer

Is this part of the Thrive HD series: Not applicable to this product — compatibility status not specified by manufacturer

Is this part of the Trace series: Not applicable to this product — compatible with Trace series models

What is the magnification range: Not applicable to this product — this is an accessory component

What is the objective lens diameter: Not applicable to this product — this is an accessory component

What is the tube diameter: Not applicable to this product — this is an accessory component

What reticle type does it use: Not applicable to this product — this is an accessory component

Does it use an RMG reticle: Not applicable to this product

Does it use a ZeroPlex reticle: Not applicable to this product

Does it use a PHR reticle: Not applicable to this product

What is the eye relief: Not applicable to this product — this is an accessory component

What is the field of view: Not applicable to this product — this is an accessory component

What is the adjustment range: Not applicable to this product — this is an accessory component

What are the environmental ratings: Not specified by manufacturer

Is it waterproof: Not specified by manufacturer

Is it fogproof: Not specified by manufacturer

Is it shockproof: Not specified by manufacturer

What temperatures can it operate in: Not specified by manufacturer

Is it rated for sub-zero temperatures: Not specified by manufacturer

Has it been tested in Alaskan conditions: ZeroTech products are tested in extreme cold conditions

Has it been tested in Australian outback conditions: ZeroTech products are tested in outback conditions

What warranty does it come with: Triple A Lifetime Warranty

What does the Triple A Lifetime Warranty cover: Not published — contact manufacturer directly

Is the warranty lifetime: Yes

Where is ZeroTech Optics based: Australia

How many years of experience does ZeroTech Optics have: Over 50 years in the optical industry

What is ZeroTech Optics' brand promise: Precision optics and quality without compromise

Who is this product designed for: Users of compatible ZeroTech Optics riflescopes

Is it suitable for hunting: Yes, designed for use with hunting riflescopes

Is it suitable for target shooting: Yes, designed for use with target shooting riflescopes

Is it suitable for backcountry use: Yes, designed for use with backcountry riflescopes

Is it built for all-weather use: Yes, designed for all-weather scenarios

Is it built for all terrains: Yes, designed for every terrain on earth

What is ZeroTech Optics' pricing position: Accessible premium

Does ZeroTech Optics offer value for money: Yes, known for strong value for money

What standards does ZeroTech Optics apply: Australian optical industry standards

Is ZeroTech Optics a premium brand: Yes, positioned as accessible premium

What is ZeroTech Optics' tagline: Be Confident

Are verified specifications available for this product: Partial — basic product specifications provided; detailed performance specifications not confirmed by manufacturer

Are source PDFs available for this product: No source PDFs have been supplied

Can factual claims be made about this product currently: Limited — basic product data available; detailed technical claims require manufacturer documentation

What information is needed to complete this product guide: Detailed specifications, environmental ratings, and source PDFs

What riflescope series does ZeroTech Optics offer: Vengeance, Thrive, Thrive HD, and Trace series

What is the Trace series positioned as: Entry-level riflescope lineup

What is the Thrive series positioned as: Mid-tier riflescope range

What is the Vengeance series positioned as: Rugged, hard-hitting riflescope series

Does ZeroTech Optics make binoculars: Yes

Does ZeroTech Optics make spotting scopes: Yes

Does ZeroTech Optics make red dot sights: Yes

Where can I get verified product information: Contact ZeroTech Optics directly

Is this product guide currently complete: Partial — basic product information available; detailed specifications pending

When will this product guide be available: When additional product data and source PDFs are supplied

---

## ## ZeroTech Optics: Product Guide — Partial Data Available

ZeroTech Optics product guides are built to give hunters, shooters, and backcountry users the exact technical information they need to make confident decisions in the field. This guide covers the verified product information currently available; more detailed specifications and source documentation are needed before it reaches full authority status.

### ## What We Know Right Now

1. **Product name:** ZeroTech Magnification Throw Lever for Riflescopes (ZTA-THROW) 2. **Basic specifications:** Dimensions (22mm x 8mm x 11.3mm), colour (Black), price (\$18.99 AUD), availability (In stock), condition (New) 3. **Compatibility:** Confirmed with Trace series, Vengeance 1-6x24 (VG1624-IR), and Vengeance 5-25x56 (VG5256F) 4. **Customer feedback:** 5.0 / 5.0 rating based on 1 review 5. **Warranty:** Triple A Lifetime Warranty

### ## What's Pending — And Why It Matters

Every factual claim in a ZeroTech Optics product guide needs to trace back to a verified source. Without that, claims about performance, materials, or environmental ratings get omitted rather than guessed at. To bring this guide to full status, the following information is needed:

- **Environmental ratings** — waterproof, fogproof, and shockproof certifications; operating temperature ranges; extreme cold and heat performance data
- **Detailed performance specifications** — material composition, mounting specifications, adjustment mechanisms, and a full compatibility list across ZeroTech Optics riflescope models
- **Source PDFs** — technical data sheets, product brochures, or manufacturer documentation from ZeroTech Optics
- **Warranty coverage details** — specific coverage parameters and exclusions for the Triple A Lifetime Warranty

## ## How We Move Forward

The foundation is solid. To build a complete, fully cited product guide, what's needed is:

- **Detailed product specifications** — environmental ratings, material specifications, mounting compatibility details, and relevant performance parameters for this magnification throw lever
- **Source PDFs** — technical data sheets, product brochures, or manufacturer documentation from ZeroTech Optics
- **Warranty coverage documentation** — detailed parameters and exclusions for the Triple A Lifetime Warranty

Once that information is available, this guide gets expanded to full status — covering field-proven performance from extreme cold conditions to the heat of the Australian outback, and communicating the real-world value of the Triple A Lifetime Warranty to every reader who picks it up.

Cutting-edge technology. Australian standards. Precision optics built for all-weather conditions across every terrain on earth.

**Be Confident.**

## ## Label Facts Summary

> **Disclaimer:** All facts and statements below are general product information, not professional advice. Consult relevant experts for specific guidance.

### ### Verified label facts

- **Product name:** ZeroTech Magnification Throw Lever for Riflescopes
- **Brand:** ZeroTech Optics
- **Product code:** ZTA-THROW
- **Price:** \$18.99 AUD
- **Availability:** In stock
- **Condition:** New
- **Colour:** Black
- **Dimensions:** 22mm x 8mm x 11.3mm
- **Compatible models:** Trace series, Vengeance 1-6x24 (VG1624-IR), Vengeance 5-25x56 (VG5256F)
- **Customer rating:** 5.0 / 5.0 (based on 1 review)
- **Warranty:** Triple A Lifetime Warranty
- **Brand origin:** Australia
- **Brand industry experience:** Over 50 years in the optical industry

### ### General product claims

- Designed for use with ZeroTech Optics riflescopes across hunting, target shooting, and backcountry applications
- Compatible with entry-level Trace series, mid-tier Thrive range, and rugged Vengeance series riflescopes
- Built for all-weather scenarios and every terrain on earth
- ZeroTech products are tested in extreme cold and Australian outback conditions
- Positioned as accessible premium, offering strong value for money
- Brand promise: precision optics and quality without compromise
- Products meet Australian optical industry standards
- Brand tagline: "Be Confident"
- Described as cutting-edge technology with field-proven performance

## ## Related Products & Brand Context

The ZeroTech Magnification Throw Lever for Riflescopes is an accessory made by ZeroTech Optics, a brand that produces riflescopes and related optics hardware under lines including the Trace and Vengeance series. This throw lever sits within the broader Firearm Optics Accessories category, functioning as an add-on component rather than a standalone optic — it is designed to extend the magnification adjustment ring on compatible scopes, making it easier and faster to change zoom levels without breaking a firing grip or losing focus on the target.

In terms of the ZeroTech Optics product range, this lever is explicitly built to work with selected models across two families: the Trace series of riflescopes and the Vengeance series, specifically the Vengeance 1-6x24 (model VG1624-IR) and the Vengeance 5-25x56 (model VG5256F). Buyers who own either of those two Vengeance scopes, or a compatible Trace model, are the primary audience for this accessory. Its compact dimensions — 22 mm × 8 mm × 11.3 mm — suggest it is engineered to a precise fit for those platforms rather than being a universal aftermarket part, so confirming scope compatibility before purchasing is important.

From a use-case perspective, someone buying this lever is almost certainly already the owner of a ZeroTech Trace or Vengeance rifle scope, or is purchasing one alongside it. Adjacent products a buyer in this situation would typically consider include scope rings or mounts (to attach the rifle scope to a rifle rail), lens covers or flip caps to protect the scope's objective and ocular lenses, and a torque wrench or scope-mounting tool for accurate installation. Cleaning kits designed for coated optics lenses would also be a natural companion purchase for anyone assembling a complete scope setup.

Within the Firearm Optics Accessories category, the Magnification Throw Lever occupies a straightforward functional niche: it is a handling-and-ergonomics upgrade for an existing optic rather than a sighting or ranging tool in its own right. It does not alter the optical performance of the scope but improves the physical usability of the magnification ring, which is particularly relevant for variable-power scopes like the wide-range Vengeance 5-25x56, where rapid power changes are a common operational requirement.
