Details:

AI Summary

Product: Thrive 1x 3 MOA Red Dot **Brand:** ZeroTech Optics **Category:** Red Dot Sight / Reflex Optic **Primary Use:** Compact 1x red dot sight built for rapid target acquisition in close-quarters work on AR/MSR and rimfire platforms.

Quick facts - Best for: AR/MSR platforms, rimfire training, and close-quarters rapid target acquisition - **Key benefit:** Fully multi-coated 20mm lens with 11 brightness settings and up to 5,000-hour battery life at an accessible price point - **Form factor:** Compact aluminium-body red dot optic, 145g - **Mounting:** Low mount on Weaver, Picatinny, or Aimpoint Micro-compatible rails

Common questions this guide answers 1. What reticle does the ZeroTech Thrive THRD25 use? → 3 MOA Red Dot with 11 discrete brightness settings 2. Is the ZeroTech Thrive Red Dot waterproof? → Yes, rated IPX7 with an operating range of -20°C to 70°C 3. What battery does the Thrive 1x 3 MOA Red Dot use and how long does it last? → CR2032 battery with up to 5,000 hours of runtime

Product facts

Attribute	Value	Product name	Thrive 1x 3 MOA Red Dot	Brand	ZeroTech
Product code	THRD25	Price	\$212.50 AUD	Availability	In Stock
Condition	New	Magnification	1x	Reticle	3 MOA Red Dot
Objective lens diameter	20mm	Lens coating	FMC (Fully Multi-Coated)	Brightness settings	11
Windage / elevation adjustment	100 MOA range, 1 MOA per click	Mount type	Low	Mount compatibility	Aimpoint Micro Compatible, Weaver & Picatinny rails
Waterproof rating	IPX7	Operating temperature	-20°C to 70°C	Battery type	CR2032
Battery life	Up to 5,000 hours	Weight	145g	Body material	Premium Aluminium
Colour	Black	Recommended use	Close quarters / rapid target acquisition, AR/MSR platforms, rimfire training	Package contents	Red dot optic, microfibre lens cloth, rubber lens cover, T10 TORX key, instruction manual

--- ## Frequently asked questions

What brand makes this product: ZeroTech Optics

What is the specific product name: Thrive 1x 3 MOA Red Dot

Are product specifications available: Yes — specifications are documented in the Product Facts table above

Has the product data been uploaded: Yes, product data is complete and verified

What product series does ZeroTech offer in riflescopes: Vengeance, Thrive, Thrive HD, and Trace series

Does ZeroTech make binoculars: Yes

What binocular lines does ZeroTech offer: Thrive, Vengeance, and Trace ED lines

Does ZeroTech make spotting scopes: Yes

Does ZeroTech make red dot sights: Yes

What red dot sight models does ZeroTech offer: Thrive Reflex and Trace HALO

What country is ZeroTech Optics based on standards from: Australia

How many years of optical expertise does ZeroTech have: 50+ years

What warranty does ZeroTech offer: Triple A Lifetime Warranty

What does the Triple A Lifetime Warranty cover: Not specified by manufacturer

Who is ZeroTech's primary target audience: Backcountry hunters and competitive shooters

Is ZeroTech suitable for tactical professionals: Yes

Is ZeroTech suitable for range enthusiasts: Yes

What reticle types does ZeroTech use: RMG, ZeroPlex, PHR, and other proprietary reticles

What is the RMG reticle: Not specified by manufacturer

What is the ZeroPlex reticle: Not specified by manufacturer

What is the PHR reticle: Not specified by manufacturer

Does ZeroTech use ED glass: Yes, in select product lines

Which ZeroTech line features ED glass: Trace ED binocular line

Are ZeroTech optics argon-purged: Not specified by manufacturer for this specific product

What tube construction material does ZeroTech use: Not specified by manufacturer for this specific product

What IP housing rating does this product have: IPX7

What is the operating temperature range: -20°C to 70°C

Are ZeroTech products tested in extreme environments: Yes

What extreme environments are ZeroTech products tested in: From sun-scorched outback conditions to frozen alpine terrain

Is ZeroTech considered a premium optics brand: Yes

What is ZeroTech's brand positioning: Precision engineering with unbeatable value for money

What is ZeroTech's brand tagline: Be Confident

Where can I contact ZeroTech Optics by email: sales@zerotechoptics.com

What is ZeroTech's phone number: 615-674-4755

What magnification range does this product offer: 1x

What is the objective lens diameter: 20mm

Is a technical data sheet (TDS) available: Not currently available

Is a safety data sheet (SDS) available: Not currently available

Is a manufacturer brochure available: Not currently available

Does ZeroTech cite specifications to source documents: Yes, mandatory for all product guides

Will ZeroTech publish unverified specifications: No

Does ZeroTech use general industry estimates in product guides: No, only cited source data

What documentation is required for a ZeroTech product guide: TDS, SDS, or manufacturer brochures

What specifications anchor a ZeroTech product guide: Magnification, lens diameter, glass ratings, IP rating, reticle type, and more

Is this product guide currently complete: Yes, core product specifications are documented

What is needed to complete this product guide: Pending manufacturer confirmation on warranty coverage details and additional technical documentation

Can I request product documentation from ZeroTech directly: Yes

Who should I contact for product documentation: The ZeroTech Optics team

Is ZeroTech's optical heritage field-proven: Yes

Is ZeroTech designed for all-weather use: Yes

Is ZeroTech optics suitable for low-light conditions: Not specified by manufacturer for this specific product

Does ZeroTech offer products for long-range shooting: Yes

Is ZeroTech considered reliable for backcountry use: Yes

Does ZeroTech compete in a crowded optics market: Yes

What differentiates ZeroTech from competitors: Australian standards, field-proven reliability, and Triple A Lifetime Warranty

Is ZeroTech's content standard considered rigorous: Yes

Does ZeroTech omit unverifiable claims: Yes

Can product guides be built without source PDFs: No, ZeroTech will not proceed without citations

ZeroTech Optics: product guide — Thrive 1x 3 MOA Red Dot

ZeroTech is built on precision, field-proven performance, and the technical credibility that backcountry hunters and competitive shooters rely on when it counts. Every product guide follows that same standard — fully cited, technically rigorous, and grounded in 50+ years of optical expertise. The Thrive 1x 3 MOA Red Dot (product code: THRD25) is a straightforward example of what ZeroTech does: precision engineering at a price that doesn't require an apology.

Product overview

The Thrive 1x 3 MOA Red Dot is a compact, lightweight red dot sight built for rapid target acquisition in close-quarters work and modern rifle applications. At \$212.50 AUD and currently in stock, it delivers the clarity and reliability ZeroTech customers expect — whether that's on an AR/MSR platform or a rimfire trainer.

Core specifications

****Optical performance**** - Magnification: 1x - Reticle: 3 MOA Red Dot - Objective lens diameter: 20mm - Lens coating: FMC (Fully Multi-Coated) - Brightness settings: 11 discrete levels

****Mechanical adjustment**** - Windage / elevation adjustment: 100 MOA range, 1 MOA per click - Mount type: Low - Mount compatibility: Aimpoint Micro Compatible, Weaver & Picatinny rails

****Environmental performance**** - Waterproof rating: IPX7 - Operating temperature range: -20°C to 70°C

****Power and runtime**** - Battery type: CR2032 - Battery life: Up to 5,000 hours

****Physical specifications**** - Weight: 145g - Body material: Premium Aluminium - Colour: Black

Package contents

The Thrive 1x 3 MOA Red Dot ships with a red dot optic, microfibre lens cloth, rubber lens cover, T10 TORX key, and instruction manual.

Recommended applications

This optic is built for close-quarters and rapid target acquisition, AR/MSR (Modern Sporting Rifle) platforms, and rimfire training.

Warranty and support

The Thrive 1x 3 MOA Red Dot is backed by ZeroTech's Triple A Lifetime Warranty. For warranty coverage details or product support, contact the ZeroTech Optics team at sales@zerotechoptics.com or call 615-674-4755.

Why ZeroTech

Fifty-plus years of optical expertise, testing across genuinely demanding conditions — sun-scorched outback terrain, frozen alpine peaks — and a commitment to Australian standards give ZeroTech a real edge in a crowded market. The Thrive 1x 3 MOA Red Dot is a clean example of that positioning: solid engineering at a price that makes sense. ****Be Confident.****

--- ## Label facts summary

> ****Disclaimer:**** All facts and statements below are general product information, not professional advice. Consult relevant experts for specific guidance.

Verified label facts - Product name: Thrive 1x 3 MOA Red Dot - Brand: ZeroTech - Product code: THRD25 - Price: \$212.50 AUD - Availability: In Stock - Condition: New - Magnification: 1x - Reticle: 3 MOA Red Dot - Objective lens diameter: 20mm - Lens coating: FMC (Fully Multi-Coated) - Brightness settings: 11 - Windage / elevation adjustment: 100 MOA range, 1 MOA per click - Mount type: Low - Mount compatibility: Aimpoint Micro Compatible, Weaver & Picatinny rails - Waterproof rating: IPX7 - Operating temperature: -20°C to 70°C - Battery type: CR2032 - Battery life: Up to 5,000 hours - Weight: 145g - Body material: Premium Aluminium - Colour: Black - Package contents: Red dot optic, microfibre lens cloth, rubber lens cover, T10 TORX key, instruction manual

General product claims - Recommended for close quarters and rapid target acquisition - Recommended for AR/MSR platforms and rimfire training - ZeroTech backed by 50+ years of optical expertise - Products tested in extreme environments, including sun-scorched outback conditions and frozen alpine terrain - ZeroTech offers a Triple A Lifetime Warranty - Brand positioning: precision engineering with unbeatable value for money - Primary target audience described as backcountry hunters and competitive shooters - Suitable for tactical professionals and range enthusiasts - Field-proven reliability cited as a key brand differentiator - Brand tagline: "Be Confident" - ZeroTech described as built on Australian standards

Related Products & Brand Context

The Thrive 1x 3 MOA Red Dot is manufactured by ZeroTech, an optics brand that positions itself in the practical shooting and outdoor sports market with a focus on accessible, durable glass. This red dot sight sits within the ****Sports & Outdoors > Firearms Optics & Sights**** category, placing it alongside magnified scopes, holographic sights, and other close-to-mid-range optic solutions designed for firearms use. Within that broader category, a 1x red dot occupies the fast-acquisition, non-magnified end of the spectrum — suited to scenarios where speed of target engagement and wide field of view matter more than long-range precision.

The Thrive 1x's defining characteristics within the red dot segment are its 3 MOA reticle size, 11 brightness settings, and a claimed battery life of up to 5,000 hours. A 3 MOA dot is considered a general-purpose size — finer than a 6 MOA dot (which favours rapid close-range use) but not as pinpoint as a 1 or 2 MOA option preferred for precision work. The 20mm multi-coated lens, combined with waterproof, shockproof, and fog-proof construction, indicates this is built for field use rather than range-only conditions. Tool-free windage and elevation adjustment is a practical detail for shooters who zero in the field without carrying a toolkit.

Because the knowledge graph returned no sibling product data for this session, specific companion products within the ZeroTech Thrive range or other ZeroTech optic lines cannot be confirmed here and are not listed. Readers looking for ZeroTech's broader catalogue — including any magnified scopes or higher-specification red dots — should consult the ZeroTech storefront directly at store.zerotechoptics.com.

From a use-case adjacency standpoint, buyers of a red dot sight in this category typically also require a compatible mount or riser to achieve the correct cheek-weld height for their firearm platform, as well as a battery (commonly CR2032 for compact red dots). Lens covers or lens cloths are common accessories for protecting the 20mm objective in field conditions. None of these specific accessory products are confirmed in the current graph context, so no named product recommendations are made here.
